HEARING RESEARCH

Vol. 164, Nos. 1–2
February 2002

CONTENTS

Cited in: Biological Abstracts (BIOSIS); Chemical Abstracts; Current Contents/Life Sciences; Current Awareness in Biological Sciences (CABS); Excerpta Medica (EMBASE); Index Medicus; INSPEC; PASCAL M; Reference Update; Full text available in ScienceDirect® and Neuroscion

ContentsC. Aletsee, D. Brors, S. Palacios, K. Pak, L. Mullen, S. Dazert and A.F. Ryan (Germany, USA)
The effects of laminin-1 on spiral ganglion neurons are dependent on the MEK/ERK signaling pathway and are partially independent of Ras 1

M. Suzuki, T. Yamasoba, T. Ishibashi, J.M. Miller and K. Kaga (Japan, USA)
Effect of noise exposure on blood–labyrinth barrier in guinea pigs 12

M.F. Kubke, M.L. Dent, W. Hodos, C.E. Carr and R.J. Dooling (USA)
Nucleus magnocellularis and nucleus laminaris in Belgian Waterslager and normal strain canaries 19

L.E. Van Campen, W.J. Murphy, J.R. Franks, P.I. Mathias and M.A. Toraason (USA)
Oxidative DNA damage is associated with intense noise exposure in the rat 29

D.S. Velenovsky and T.J. Glattke (USA)
The effect of noise bandwidth on the contralateral suppression of transient evoked otoacoustic emissions 39

X. Shi, T. Ren and A.L. Nuttall (PR China, USA)
The electrochemical and fluorescence detection of nitric oxide in the cochlea and its increase following loud sound 49

H. Chang, K. Chen, J.A. Kaltenbach, J. Zhang and D.A. Godfrey (USA)
Effects of acoustic trauma on dorsal cochlear nucleus neuron activity in slices 59

M. Kittel, E. Wagner and G.M. Klump (Germany)
An estimate of the auditory-filter bandwidth in the Mongolian gerbil 69

A.M. Thompson and A.F. Wiechmann (USA)
5-HT_{1A} receptor subtype mRNA expression in cochlear nucleus 77

C.M. Moore, M. Vollmer, P.A. Leake, R.L. Snyder and S.J. Rebscher (USA)
The effects of chronic intracochlear electrical stimulation on inferior colliculus spatial representation in adult deafened cats 82

F.A. Thiers, B.J. Burgess and J.B. Nadol Jr. (USA)
Axodendritic and dendrodendritic synapses within outer spiral bundles in a human 97

X. Yang and O.W. Henson Jr. (PR China, USA)
Smooth muscle in the annulus fibrosus of the tympanic membrane: physiological effects on sound transmission in the gerbil 105

D. Ding, A. Stracher and R.J. Salvi (USA)
Leupeptin protects cochlear and vestibular hair cells from gentamicin ototoxicity 115

R.D. Cook, T.Y. Hung, R.L. Miller, D.W. Smith and D.L. Tucci (USA)
Effects of conductive hearing loss on auditory nerve activity in gerbil 127

(Contents continued from back cover)

S.F.L. Klis, S.J. O'Leary, J. Wijbenga, J.C.M.J. de Groot, F.P.T. Hamers and G.F. Smoorenburg (The Netherlands)
Partial recovery of cisplatin-induced hearing loss in the albino guinea pig in relation to cisplatin dose 138

F.E. Hossler, F.C. Avila and G. Musil (USA)
Na^+,K^+-ATPase activity and ultrastructural localization in the tegmentum vasculosum in the cochlea of the duckling 147

F.E. Hossler, K.R. Olson, G. Musil and M.I. McKamey (USA)
Ultrastructure and blood supply of the tegmentum vasculosum in the cochlea of the duckling 155

O. Gleich and J. Strutz (Germany)
Age dependent changes in the medial nucleus of the trapezoid body in gerbils 166

M.A. Cheong and K.P. Steel (UK)
Early development and degeneration of vestibular hair cells in *bronx waltzer* mutant mice 179

C.C. Schulte, J. Meyer, D.N. Furness, C.M. Hackney, T.R. Kleyman and A.W. Gummer (Germany, UK, USA)
Functional effects of a monoclonal antibody on mechanoelectrical transduction in outer hair cells 190

J.D. Rachel, J.A. Kaltenbach and J. Janisse (USA)
Increases in spontaneous neural activity in the hamster dorsal cochlear nucleus following cisplatin treatment: a possible basis for cisplatin-induced tinnitus 206

C. Formby, J.C. Rutledge and L.P. Sherlock (USA)
Exponential processes in human auditory excitation and adaptation 215

P.J. Kozel, R.R. Davis, E.F. Krieg, G.E. Shull and L.C. Erway (USA)
Deficiency in plasma membrane calcium ATPase isoform 2 increases susceptibility to noise-induced hearing loss in mice 231
